SDU statement on crowdfunding campaigns

The Sudanese Doctors Union is working directly with the online fundraiser started by the volunteer committee in Manchester, UK, which has our full backing and can be found at:
<https://www.gofundme.com/emergency-medical-aid-for-sudan>

Donations have already successfully been transferred using this fundraiser to Sudan, and we will continue to send all that has been raised in recent weeks through trusted channels to support the injured and those in need.

The SDU-UK and committee are committed to an accountable and transparent process. We will continue to work closely with those on the ground to ensure that all funds are directed correctly, and will provide regular updates on the transfer process.

The SDU-UK is grateful for the support of the Manchester committee, and for the immense generosity of all those donating, sharing, and spreading awareness of the abuses in Sudan.

Dr. Nabeel Ahmed
SDU Secretary General
